# SVERIGE BYGGER

# CUSTOMIZED CONSTRUCTION INFORMATION

## Keep track of the industry's **construction projects**, **companies**, **tenders** and **procurements**, in both the public and private sector.

Together with our clients, we create a customized solution. We go through the geographical area, the type of constructions you want to keep track of and when they are taking place. We do everything to ensure you receive the right information at the right time from the Swedish construction industry's largest project database and most comprehensive project monitoring.

## Search service
Using our search service, you can explore our entire database with the help of your profile. With the quick search function, you can search by using words such as the project name, company name or location. The advanced search function, allows you to look for specific or groups of projects/companies, which includes information on both future and past data.

## Project events
The service compiles the latest events for the projects in your profile. The location is represented on an easy-to-understand map.

## Company events
See the companies that were most recentlyreported in projects within your profile.

## My Projects and Contacts
Selectively monitor projects and companies. We send an e-mail when something happens. You can also save important projects/companies, make notes, set recurrences and create your own folders to keep things organised.

## Company analysis
Relationships - who is working with whom? Projects that companies are involved in -their size, type, geographical distribution, construction start dates.

## Ranking
This function helps you quickly see which companies are most active, have the most projects or have the highest total project value. It gives you an overview of the situation and helps you prioritise the right companies.

## Map function
You can also select hit lists with the map function, which when adjusted, zooms in on a map. The map function provides a quick and good overview and you can also use it to get directions for a project or company.

## Additional services
Advanced license
• See colleagues' notes
• Send and receive projects
• Shared folder structure

# SVERIGE BYGGER

Our mission is to make it easy for our customers to make the **right business decisions**, **market themselves effectively** and find even **more and better business opportunities**. With Mitt Sverige Bygger you will notice that we take our mission seriously.

## Updates every day, give you business opportunities every day.

By conducting daily market surveys, the editorial team of the Swedish construction industry, tracks the entire construction process and identifies who is building what, when and how.

Each individual construction and facilities project is followed up, from the developer's concept, planning and architect's drawing, to the reporting of tender deadlines and the procurement of consultants, contractors and sub-contractors. As a customer of Mitt Sverige Bygger, you have immediate online access to any changes in the database.

## My shortcuts

Mitt Sverige Bygger is probably the first and only construction information service in the world that can customize it's services. With the new online function My shortcuts, you can choose which functions and modules you want. Drag and drop them in order to create your unique and customized solution.

## We provide the information

Which type of projects are you interested in and at which stage of the project do you want the information? We continuously monitor constructions, in the hunt for business-relevant information.

Welcome to the Swedish construction industry's largest construction project database and most comprehensive project monitoring.
